Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. § 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. § 102(b) as being anticipated by Rizzone. Rizzone discloses an assembly for attaching a liner (12) to a pump module (10) comprising a first end of the liner sealingly engaging the module, within a bushing attached to the module; a locking body (18) threadedly engaging a tension body (17) attached to the bushing and having a first end contacting an annular shoulder of the liner.

Conclusion

Claims 10-27 are allowed.

Claims 2-9 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
